MILITARY PREPAREDNESS DEBATED BY STUDENTS

Monthly Exercises of Academy Incor-
porate Word Proved Highly
Interesting.

The monthly exercises of the Incor-
porate Work Academy were held Friday
afternoon in the Cathedral hall.
In addition to the more or less usual
program, there was added this month
a very interesting item, namely, a
debate by the young ladies of the
Sophomore and Senior grades, on the
present all-absorbing question of "Mil-
itary Preparedness."

In behalf of the affirmative of the
debating party, Miss Raymond P. J.
Nussbaum, commented on the young
ladies' papers. Her remarks were both
complimentary and encouraging. "From
a literary standpoint," said Miss Lord-
ship, "your papers are full of interest
and instruction, but your arguments
for and against preparedness are ex-
tensive and forcible that I deem it pre-
sident to give the jury considerable time
for reflection before delivering a ver-
dict." The young ladies anxiously
await their umpire's decision.

RABBI COHEN LECTURES HERE MONDAY NIGHT

The Eminent Rabbi Will Discuss "A
Certain Phase of the Euro-
pean War."

Rev. Henry Cohen, the distinguished
Jewish Rabbi of Galveston will deliver
a lecture at the Presbyterian Church
Monday evening, April 2 at 8:30 sharp.
The eminent rabbi will discuss "A
Certain Phase of the European War,"
in which he deals with the plight of
the unfortunate Jewry in the Polish
and other Eastern European battle
grounds.

The general public is cordially in-
vited. There is no admission fee, no
offering will be taken.

Rabbi Cohen is known all over Amer-
ica for his leadership in charities. He
has been in charge of the Jewish Im-
migration work at the port of Galveston
and also handled the American occu-
pancy of Vera Cruz since out of the
ports of Tampico and Vera Cruz to
Galveston.

Rabbi Cohen is one of the best in-
formed of the citizenship of Galveston
and frequently settles the doubts of
the various churches. He did valiant
service during and after the first Gal-
veston storm, during which he and his
family barely escaped with their lives.

Paul Cherry of Harrison, L. H.
Shaffer of Waco and W. E. Voss of
Houston were among last night's ar-
rivals at the Horse Apartments.

LIGHT SHOWER FELL SATURDAY MORNING IN CORPUS CHRISTI

THE FIRST PATTERNING OF RAIN-
DROPS LOCALLY FOR SEV-
ERAL MONTHS HEARD.

March for the First March in Thirty
Years Proved Favourable For Cor-
pus Christi—Summary.

Real forecast-to-goodness rain fell in
Corpus Christi Saturday morning. It
was the first time that the patterning
rain drops had been heard locally for
seven long months. But as a rain it
was nothing to brag about, being a
proverbial April shower, the total pre-
cipitation being but one-tenth of an
inch. The shower was accompanied
by cooler weather last night being dis-
cidedly brisk, the temperature drop-
ping as low as 68.

Light showers were reported Satur-
day at Brownsville, Bishop, Kingsville
and other points in the Gulf Coast sec-
tion. The weather men offers no hope
for a general rain for another few days
at least, though he is predicting light
showers.

Children faced splendidly in the rain-
getting the Saturday precipitation be-
ing 2.04 inches. Fort Worth was even
better with 3.70 inches. Palestine, San
Antonio and El Paso were other Texas
cities reporting rain during the day.

The drought is proving a serious
matter to both farmers and stockmen,
many of the latter shipping cattle to
other parts of the state, on account of
the range being nearly barren of grass.
The planting of cotton is being delayed
at the protracted dry weather.

March 1916 is the first March in
thirty years in which Corpus Christi
has been rainless, the average rainfall
for the third month of this year being
1.81 inches. The total deficiency for
the year is 3.82 inches. In 1904 the
March rainfall was but .08 inch. With
that exception and March 1894 the
rainfall was in excess of one half inch
each March.

The highest temperature for the past
month was 80 occurring on the sev-
enth and the lowest was 59 on the third
day of the month. The greatest daily
range was 25 degrees, March 18. The
prevailing direction of the wind was
from the southeast with a total move-
ment of 15,600 miles, an average hourly
velocity of 18.2 miles. On March 24
the wind attained a velocity of 24
miles an hour.

There were nine clear days during
the month, seventeen partly cloudy and
five cloudy. Four of the days were
foggy, March 2, 1, 11 and 16.

KELLY TO OPEN BEER AGENCY IN SAN DIEGO

San Diego Offers Advantage as Near
"Wet" Territory to Nueces
County.

Honoree Gready, some years ago and
"do west young man."

Before men of Corpus Christi are
heeding the suggestion, San Diego,
city five miles west of here on the
Texas-Mexican Railroad and with the
exception of Rockport the nearest
"wet" to Corpus Christi, is to be the
mecca of a number of those now en-
gaged in the saloon business in Corpus
Christi. It will be recalled that on last
March 16 Nueces county, of which Cor-
pus Christi is a big part, voted to
move into the prohibition column.

Martin Kelly, Saturday announced
that he is in charge in the wholesale
beer business at San Diego. His an-
nouncement appears elsewhere in to-
day's Caller, telling in detail of his
plans.

Under the law the shipping into the
city of intoxicating liquors will be
permitted. Those Mr. Kelly has con-
sidered Mr. Kelly five dollars with the
request that a case of bottled beer be
expressed to the local residence in Cor-
pus Christi. While Kelly will do the
rest.

Someone has facetiously said that
after April 21 the Texas-Mexican af-
fairs will be in Corpus Christi will be
known by many as "The Borderline
Limited."
